

ASEA JOURNAL

VOLUME 39

1966

PUBLISHED BY
ASEA
VÄSTERÅS, SWEDEN

LIST OF AUTHORS

	Page		Page
<i>Bergquist, R. B.</i>		<i>Lundberg, C.-G.</i>	
Kykkelsrud-Fossumfoss Power-station	56	Simple thyristor rectifier for the speed control of machine tools	119
<i>Bratt, T.</i>		<i>Ottosson, G.</i>	
Melting of ductile iron in induction furnaces in Sweden	127	The pressductor and torductor in the pulp and paper industry	3
<i>Buhre, T.</i>		<i>Ryding, M.</i>	
The ASEA-SKF Steel Refining Process	87	Melting of ductile iron in induction furnaces in Sweden	127
<i>Claesson, R.</i>		<i>Ryhd, N.</i>	
The bulk-handling installation at Luleå Ore Port	47	Electrical equipment for rotary printing presses	33
<i>Doverholt, O.</i>		Automatic reelstands for rotary printing presses	74
Merchant mill at the Forsbacka Works of Fagersta Bruks AB	167	<i>Sandin, A.</i>	
<i>Edman, H.</i>		Presentation of the High-pressure Laboratory	147
Simple thyristor rectifier for the speed control of machine tools	119	<i>Schultz, R.</i>	
<i>Granö, N.</i>		ASEA's transformer factory in São Paulo	67
The pressductor and torductor in the pulp and paper industry	3	<i>Stendal, K.-E.</i>	
<i>Gulink, G.</i>		Mine winders with transistorised automatic control gear	107
Modern electrical laboratory equipment for technical colleges	12	<i>Stickler, H.</i>	
<i>Hanås, B.</i>		Electrical equipment for the ASEA-SKF Steel Refining Process	90
Melting of ductile iron in induction furnaces in Sweden	127	<i>Thorsteinsen, T. E.</i>	
<i>Herlitz, H.</i>		Modern lightning arresters	152
The ASEA-SKF Steel Refining Process	87	<i>Tiberg, M.</i>	
<i>Håkansson, G.</i>		The ASEA-SKF Steel Refining Process	87
Merchant mill at the Forsbacka Works of Fagersta Bruks AB	167	<i>Westerback, T.</i>	
<i>Johansson, M.</i>		Iron-ore pelletising plant at Kiruna	173
Thyristor converters for large power ratings	132	<i>Vikström, L.</i>	
<i>Kleman, I.</i>		Linköping's District-heating Plant	27
Merchant mill at the Forsbacka Works of Fagersta Bruks AB	167	<i>Zanders, J. C.</i>	
<i>Lindberg, P.</i>		Selection of motors for chippers	69
A further two new Product Divisions—Company reorganisation completed	54	<i>Öberg, B.</i>	
New Product Division	159	Numerical control equipment for milling machine	115
<i>Lindström, I. †</i>		<i>Öhlund, E.</i>	
Air-blast circuit-breakers type HVH	96	Thyristor inverters for no-break power supply	137
		<i>Östlund, A.</i>	
		Vacuum equipment for the ASEA-SKF Steel Refining Process	93

LIST OF CONTENTS

	Page		Page
<i>Research and testing</i>		Modern lightning arresters	152
Modern electrical laboratory equipment for technical colleges	12	Motor actuator*	163
ASEA's analog computer*	62	New series of limit switches*	179
Test room for contactors*	63	<i>Transport equipment</i>	
Impulse generators*	143	Rope hoist for silo*	21
Presentation of the High-pressure Laboratory	147	Bridge control system for ships*	21
<i>Turbines</i>		Two-girder overhead crane for lorry goods depot*	42
Gas Turbine Congress in Zürich*	162	The bulk-handling installation at Luleå Ore Port	47
<i>Electrical machines</i>		Large locomotive orders from the Swedish State Railways*	102
M motor with low-speed relay*	20	Mine winders with transistorised automatic control gear	107
Selection of motors for chippers	69	Electric locomotives for Rumania*	141
Hydro-electric generator with water-cooled stator and rotor*	80	Current collectors and wire retainers for cranes and hoists*	160
Mobile diesel-generator sets*	122	Remote-controlled handling of railway wagons*	183
Small flexible shaft couplings*	123	<i>Electric furnaces and induction heating</i>	
The M motor on top of the world*	141	Mains-frequency induction furnaces for the holding and superheating of iron*	23
Geared motors for ore beneficiation plant*	144	High-frequency heater for forging billets*	41
Axial sealing ring for M motors*	161	Two-chamber furnaces for die-casting foundry*	43
Double-armature motor for Domnarfvets Jernverk*	164	The ASEA-SKF Steel Refining Process	87
Mica slotting saw for commutators*	181	Electrical equipment for the ASEA-SKF Steel Refining Process	90
Commutator motors type A for vertical mounting*	181	Vacuum equipment for the ASEA-SKF Steel Refining Process	93
<i>Transformers</i>		Melting of ductile iron in induction furnaces in Sweden	127
ASEA's transformer factory in São Paulo	67	<i>Electric power plants and networks</i>	
<i>Static converters</i>		Linköping's District-heating Plant	27
Rectifiers for electrostatic precipitators*	19	High-voltage direct current for the Pacific Intertie*	40
Thyristor-controlled alternating voltage regulator*	24	Kykkelsrud-Fossumfoss Power-station	56
New module with semi-conductor diodes*	44	Västerås municipal district-heating power plant*	60
High-voltage direct current for the Pacific Intertie*	40	Mobile diesel-generator sets*	122
Thyristor regulator for a.c. control*	80	New power-station on the Ångerman River*	124
Simple thyristor rectifier for the speed control of machine tools	119	Thyristor inverters for no-break power supply	137
Thyristor converters for large power ratings	132	Stand-by power plant for Aker Hospital, Oslo*	162
Thyristor inverters for no-break power supply	137	<i>Industrial equipment</i>	
High-current rectifier for electrolysis*	161	The pressductor and torductor in the pulp and paper industry	3
<i>Electrical apparatus and switchgear</i>		Hydraulic disc brakes for Canada*	22
The pressductor and torductor in the pulp and paper industry	3	Electrical equipment for rotary printing presses	33
Modern electrical laboratory equipment för technical colleges	12	Automatic reelstands for rotary printing presses	74
Pressure switch for automatic pilot*	20	Sugar centrifugals in Australia*	104
Bridge control system for ships*	21	Numerical control equipment for milling machines	115
Modernised auxiliary relays types RRM 17, RRM 27 and RMX 17*	23	Boeing order ASEA motors for new wind tunnel*	163
Stage lightning equipment in Helsinki*	39	Merchant mill at the Forsbacka Works of Fagersta Bruks AB	167
Fluorescent inspection lamp*	41	Iron-ore pelletising plant at Kiruna	173
Time-lag relay type RRKN*	42	Commissioning of rolling mill in India*	180
Auxiliary relay type RRMT 1*	43	Process control computer for one of the largest paper mills in Europe*	182
New under-voltage relay*	61	Off-machine trailing-blade coater plant at Brusafors-Hällefors*	184
Shaft current protection*	63	<i>Organisation and staff, exhibitions, etc.</i>	
Test room for contactors*	63	The ASEA Powerama, 1965*	17
735 kV air-blast circuit-breakers type HVH 735/2514 for Hydro-Québec*	81	6th Tokyo International Trade Fair*	19
Continuously scanning system for remote indication*	83	Travelling exhibition in India*	20
Contraction circuit-breakers type HLD 145/1200*	84	New ASEA brochures	37
Air-blast circuit-breakers type HVH	96		
Numerical control equipment for milling machine	115		
Current supply unit with two outputs*	123		
New metal-enclosed distribution system*	123		
Impulse generators*	143		

	Page		Page
Honorary doctorate conferred on Dr Uno Lamm at the Danish Institute of Technology, Copenhagen*	38	New director appointed to ASEA, Milan *	80
Collaboration in Brazil between ASEA and ARNO S.A.*	38	New ASEA brochures	95
A further two new Product Divisions-Company reorganisation completed	54	New directors appointed in Spain and Peru*	102
Mr Orvar Dahle awarded the Gold Medal of the Swedish Academy of Engineering Sciences (IVA)*	60	Yngve Sundberg Doctor of Engineering*	102
ASEA's transformer factory in São Paulo	67	New Product Division	159
New ASEA brochures	79	New ASEA brochures	159
		New directors appointed*	160
		Gas Turbine Congress in Zürich *	162
		Utrecht International Spring Fair, 1966*	178
		Ships' Gear International '66, London *	178

* News in brief
